Willow Tunic Very New—Tunic of Flesh Tinted Taffeta Embroidered in Gold Thread—Old-fashioned Bustle Revisited—Three Excellent Recipes—Heavily Dotted Veils Harmful to the Eyes—Makes One Appear Ludi-cious—Procure Plain Veils If Possible.

WILLOW TUNIC TENDING

Is the steel crinoline woefully pre-scient of many things? Is it pre-dicting the recurrence of the styles of fashion of thirty odd years ago? Is it the grim forerunner of the bustle and the hoop skirt, just as was the pannier in 1817?

Not so, are declaring the conserv-atives, vigorously emphatic in their denials. But after the denial they are quite unable to refuse to recog-nize the increasing fullness and stiffness and puffiness of the present willow tunic or to admit that its growing dimensions are food for rather painful reflection.

When the steel crinoline was first introduced it was a mild affair, not separating the tunic from the skirt proper except to a slight degree. No one seemed to think that it was any cause for alarm, considering it merely as a substitution of steel spring for a corset. Now, however, the steel crinoline is assuming larger and larger proportions, while in some of the latest models the tunic is lined with crinoline, and standing out at large angles gives the wearer much the appearance of a full blown peony at the end of a stalk.

These crinoline skirts are taking on more and more fantastic shapes all of the time. Some of them dip low to the bottom of the skirt in front, with queer hip length effects at the side that stand out stiffly from the waist line. In the back is placed the huge bow of the material sometimes a yard in width from loop to loop, substantially wired and com-bining the effect of a pannier, a bustle, and a Japanese obi. In almost every instance now the draperies pro-posed and swing out far and free from the main part of the skirt.

One stunning gown which caused much comment recently was that on which a tunic of flesh tinted taffeta, handsomely embroidered in gold thread, billowed over the hips in ac-tual waves of the material, and ended in gold tassels with cabochons of pearls. The bodice was embroidered in white pearls, while pearl tassels flanked the rows of pearls in the flesh colored bodice. The skirt was embroidered in the same gold de-sign, while at the ankles the skirt was caught close by a wide band of pearls and gold embroidery.

As for the bustle all signs of the times point to its actual arrival in our midst. To be sure it is not the old fashioned bustle of former days, but a revised, modern affair. On one model an enormous bouche of silk projected directly out in the back. The top of the tunic at the hips and in front was drawn closely about the hips by a wide sash and girde effect. Only the bustle in

PIMPLES ON FACE, NECK AND ARMS

Very Large, Itched Badly. Suffered Terribly. Used Cuticura Soap and Ointment. Entirely Cured Now.

411 Howard St., Dayton, Ohio.—"About a year ago my face, neck and back were beginning to become afflicted with pimples and blackheads. My pimples would get very large and appear to come to a head. If I tried to open them the pain would be terrible, but nothing could be taken from them. They itched very badly; I suffered terribly from itching. After scratching the pimples would swell and after the swelling was gone my face would become very red and remain so for some time. My clothing caused the itching to be worse. When it was warm it was utterly impossible to sleep.

"I used a cream and the more I used the worse they got. Shortly after I read the advertisement of Cuticura Soap and Ointment and determined to use them. I bathed the pimples every night in warm water, using Cuticura Soap, after which I would apply the Cuticura Ointment. In the morning I would wash it off with Cuticura Soap and again apply the Cuticura Ointment. The itching stopped almost immediately. This was about three months ago and I am entirely cured now." (Signed) Miss Margaret E. Jacobs, Jan. 13, 1913.

Why not have a clear skin, soft white hands, a clean scalp and good hair? It is your birthright. Cuticura Soap with an occasional use of Cuticura Ointment will bring about these coveted conditions in most cases when all else fails. A single set is often sufficient. Sold throughout the world. Liberal sample of each mailed free, with 22-p. skin book. Address post-card "Cuticura, Dept. T., Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Rex Acres

—\$300 to \$400 each—

—Why pay more—

When you can get an acre of first class land with a good water rights—fronting on North Washington Avenue and street car lines, just outside of city limits. This land is suitable for fruit farming and suburban homes—no city taxes, yet all the advantages of a city home. This is a new addition of acreage being platted and sold in lots.

10% down and \$10.00 per month. Also six acres with Brick House and other improve-ments—Cheap.

KELLY & HERRICK

RECIPES

COCOA CAKE

One-half cup butter, one cup sugar, two eggs, one teaspoon vanilla, three-quarters cup sweet milk, one and three-quarters cups flour, two teaspoons baking powder, four table-spoons cocoa. Cream butter, stir in sugar, and add unbeaten eggs, and beat all together until creamy. Sift together, baking powder, and flour to-gether, alternating with milk until batter is still enough to drop from spoon. Add vanilla. Bake in loaf in moderately hot oven for thirty min-utes. Take for frosting two squares sweet chocolate, melted, stirred into one and one-half cups confectioners' sugar. Add drops of hot water until right consistency.

FLANK STEAK WITH DRESSING

Select a nice thick flank and have the butcher remove all skin and score it on both sides. Ask for a small piece of suet. Ingredients for dressing: Two cups of soaked bread crumbs, one small onion, one ta-blespoon of butter, one egg, one quar-ter teaspoon of salt, a little powdered sage, several shakings of pepper. Pour water on the stale bread. When soft press dry in both hands, then reject any hard or dark parts. Beat the egg well and stir in, also the seasoning; mince the onion, put in frying pan with the butter let it cook a little but not brown, add the bread turn a few times, then take from stove. Rub the flank well with salt and pepper, place dressing on, then roll tightly, tie with white cord, cut suet up finely, place in pan and lay in the roast cover and cook in steady heat; it must be well done but not dried out.

PINEAPPLE ORANGE MARMALADE

Take six well ripened pineapples and six tart oranges, put both through a food chopper, mix to-gether, and for every cup of the pulp take one cup sugar. Cook until the thick-ness of ordinary jam, then pour into glasses and let cool.

AS TO VEILS

If you have been wearing one of the ultra fashionable heavily pat-terned veils, and you wonder why your head aches constantly, or why you have developed "nerves," you may find the answer in the follow-ing statement made recently by an eminent eye specialist.

"Since the advent of the heavily dotted and heavily figured veils more women suffer from eye strain, with its resultant evils than ever before. Women come to me complaining of constant headaches, backaches, indi-gestion, and general nervous disor-ders which investigation proves to be caused from the wearing of veils, the scrolls, sprays, and dots of which interfere adversely with the visual apparatus."

Aside from the tremendously im-portant question of health, it is a constant wonder to me that woman's own vanity does not save her from the beauty disfiguring sins she com-mits in veil purchases. Only a week ago I met a young debutante whose reputation as a beauty has won her considerable newspaper notice. But the ringworm design in the veil she wore was such as to make observers believe she was suffering from some horrible facial disease.

And again, I met another girl whose appearance was made posi-tively ludicrous by the two huge dots in her black veil, which came directly over the eyes, a third dot which lit exactly on the tip of her rouse nose, and still two more of these immense dots at the corners of her mouth. She was not a beau-tiful girl, but every vestige of possi-ble good looks was destroyed by the badly chosen veil.

Imagine the eye strain that must result from two large black dots worn over the eyes, even for a day! It is almost impossible to arrange a dotted veil so that no dot comes over the pupil of the eye. It is equally impossible to arrange one of the extremely fashionable and so called artistically figured veils without menace to both health and looks. Even though the veil is pinned so as to allow it to fall free, if the pat-tern is elaborate, the effect on the eyes is bad.

MERRILL ENTERS PLEA OF NOT GUILTY

Salt Lake, Nov. 6.—Frank F. Mer-rill, a former guard at the state pris-on, entered a plea of not guilty when arraigned before Judge F. C. Looft-bourne in the district court yesterday

on a charge of having aided George Parry to escape. Time for trial was not fixed.

Merrill is charged with having aided, procured, connived at and per-mitted the escape of Parry over the prison walls August 1 last. Parry was arrested, and in statements to the prison authorities implicated Merrill. Merrill was bound over from the lower court.

D. C. Hathaway, a city patrolman charged with treating a prisoner in an inhuman manner, was arraigned before Judge Looftbourne yesterday and entered a plea of not guilty. His case was not set.

Yee Foo Lun, a Chinese herbalist, was arraigned and pleaded not guilty to a charge of practicing medicine without a license. Lun is said to have offered to perform a criminal operation.

L. Thomas entered a plea of guilty to a charge of having morphine in his possession unlawfully and was sentenced to serve five months at hard labor in the state prison.

ROCHESTER HAS BIG MINING DEAL

Herald-Republican: Joseph F. Nenzel, the direct-action mining dynamo of northern Nevada, the father of Rochester, was in Salt Lake yesterday, a guest at Hotel Utah.

The fact that he and John F. Cow-an, a prominent local operator, were closeted all yesterday afternoon is proof that there is a "hen on the nest" as one close in touch with the situation put it yesterday. The re-sult of the next three weeks of in-cubation will no doubt bring forth at the cracking of the shell a powerful consolidation. It will embrace the principal properties of Nevada's startling new silver camp, Rochester; the modern equipment of the main properties and the sinking to great depth and the erection at once of a big custom plant to treat the several hundred thousands of tons of first-class mill ore already proving.

Mr. Nenzel is a big strapping fel-low of about 35, with a muscular de-velopment which any athlete would envy; a strong face, but thought he is "only a miner and prospector" he has as affable and gracious ways as a city bred lad of refinement. He is a self-made man, having worked in eastern mines for only \$1.50 a day, but today he has the bull of Roch-ester by the tail, and back of it the power to sling it over his shoulder into the melting pot of his pet scheme of a huge million dollar con-solidation.

Mr. Nenzel said yesterday that to-day there are about 900 people in the camp of Rochester. Depth is proving the values are increasing. There are a dozen or more active properties and leases in the heart of the district. There are five ship-pers, and the daily tonnage from camp is 125 tons of ore. This will average from \$30 to \$85 a ton. That means a production of over \$100,000 every 30 days, or more than \$1,000,000 a year.

During the past nine months, or since shipping began, there have been sent out 265 carloads of ore from camp. This is estimated at \$260,000. Of this amount 248 car-loads came from the Rochester Mines Nos. 1 and 2 leases.

Relative to camp particulars, Mr. Nenzel said that the little Nevada Shore Line, which connects the camp with the U. P. railway at Orem, is a success. It is handling about 100 tons of ore daily.

The Big Four lease on the Roch-ester Mines has now drifted 75 feet on the ore from the 200-level. It has today blocked out on three sides a tonnage estimated at \$250,000. That is from the 200 to the Codd lease is getting into the ore shoot in the south drift 250 feet deep. It already has six feet of \$30 ore, its best show-ing to date. It has proven a large tonnage of \$15 to \$10 ore, good mill stuff.

The Rochester Weaver, another adjacent property in which Mr. Nenzel holds controlling interest, has run in 430 feet and the tunnel has been 75 feet drifting in ore. It is vertically 300 feet from the surface. The Belmont (or McIntosh) has three sets of leasers at work; there is one set on the Limerick and four on the Packard. The Packard has opened up some rich surface de-posits which Mr. Nenzel is sanguine will be found to go to depth. The Lin-coln Hill has five sets of leasers at work. Some high grade specimens are being taken. A big consol-idation of the main Lincoln Hill prop-erties is said to be well under way.

The Stoker leasers on the Weaver have struck seven feet of \$50 ore in a 400-foot tunnel. This is about 150 feet from the surface. This adit was sent in on a vein and has been in ore continuously for 300 feet. The leasers are shipping its third carload of ore.

Over at Rock Creek, near Rye Patch, a strike of \$150 ore was re-ported a few days ago.

Rochester camp in general is in a very prosperous condition, and there is no doubt in the mind of those most competent to judge that Nevada has welcomed in a new silver camp which promises to be one of the prin-cipal mining pillars of the great metal-ribbed state.

ELEVEN WOMEN ON THE GRAND JURY

Redwood City, Cal., Nov. 6.—Wom-en will direct affairs of the San Mateo county grand jury, organized here yesterday with eight men and eleven women members. The jury was drawn from a venire of seven-teen women and thirteen men. Judge George N. Buck made the selections, holding that women may serve on juries, although Judge George Cab-anis, who sat in his court in the Co-burn case, and Attorney General U. S. Webb, recently have ruled to the contrary.

The women proved the strength of their position as soon as the jury went into executive session, by elect-ing Miss Diva Bell as secretary, al-though the men nominated a candi-date of their own for the position. The first work of the jury, after organization and instructions from Judge Buck, was an inspection of the courthouse and county jail. The prisoners, when invited to state any grievances, addressed themselves to the women. The culinary department came in for a rigid inspection. Bread

MAY NOT HAVE NEW HOME COMPLETED

Mrs. Charles W. Gates.

Work on the mansion which the late Charles W. Gates was erecting at Minneapolis has been stopped, and will not be resumed until after the contractors have had a conference with Mrs. Charles W. Gates, and also with the dead man's mother. The building, if completed, will be the most palatial residence in the north-west.

was tasted, sauce pans examined, and everything about the place looked into. The women intend to subject everything that comes before them to the closest scrutiny.

TAXATION OF BONDS A CALIFORNIA ISSUE

San Francisco, Nov. 6.—Collector of Internal Revenue J. J. Scott has asked the secretary of the treasury for an opinion as to whether or not the bonds of irrigation and reclama-tion sections of his district are liable to taxation. A doubt has arisen as to the application of a clause in the tariff law that exempts bonds of a state, or a political subdivision of a state, from taxation and the ques-tion has arisen if irrigation and re-clamation districts fall under this provision. The expected ruling will affect hundreds of thousands of acres in the northern part of California and in the state of Nevada, which is included in Collector Scott's district.

TAX LAW PUZZLES PARIS

Paris, Nov. 6.—Some of the Paris banks are in a sort of quandary over the new American income tax law. They hold some \$7,000,000 of coupons of American securities, which have already been cashed or discounted, and the opinion is expressed that the French banks may lose the one per cent income tax to be collected in the place of origin.

ANN ARBOR IS NOT TO JOIN CONFERENCE

Ann Arbor, Mich., Nov. 6.—By an overwhelming majority, students, fac-ulty and Ann Arbor alumni of the Uni-versity of Michigan have voted the new American income tax law. They held some \$7,000,000 of coupons of American securities, which have already been cashed or discounted, and the opinion is expressed that the French banks may lose the one per cent income tax to be collected in the place of origin.

A dispute has arisen as to the meth-od of counting the votes cast by out-side alumni. Seventeen associations voting as associations, have cast their ballots in favor of return, while nine associations have voted no. Pro-con-ference men want the individual bal-lots counted.

Final action on the question is in the hands of the board of university regents which will meet November 14. What effect the vote just taken will have on their decision is un-known. Considerable outside pres-sure is being exerted to have the board ignore the vote entirely and put Michigan back in the intercolle-giate fold.

WORLD'S RECORD FOR STEEPLECHASE RACE

Baltimore, Md., Nov. 6.—A world's record for a steeplechase of two miles, 3.52 1-5 was made yesterday at Pimlico race track by The Welkin with 160 pounds on her back. The Welkin is ten years old and is owned by Colonel Ra Parr of Baltimore.

The black mare took the lead early in the race, and, flying over her jumps like a bird, soon had the field strung out. The only serious con-tender was George Eno, who came with a rush at the end checked at last jump.

NEW COLLEGE STADIUM

New York, Nov. 6.—Ground was broken today for a new athletic stadium for the college of the city of New York. The structure, which is to be located at 138th street and Amsterdam avenue, is the gift of Adolph Lewisohn, and will cost \$200,000.

DAKOTA TO FINISH SCHEDULE

Vermillion, S. D., Nov. 5.—The two games remaining on the University of South Dakota football schedule will be played in line with a request of the student body in mass conven-tion assembled this afternoon. All the players agreed to don uniforms for practice tomorrow in prepara-tion for the games with the Michigan Aggies on November 15 and Creigh-ton University on Thanksgiving day.

FORESTRY MEN TO MEET IN SALT LAKE

Preparations are being made by R. F. Peagans, solicitor in charge of dis-trict No. 4 of the forest service for the conference of assistant solicitors in the departments in the west to be held in Salt Lake for three days com-mencing next Monday. The confer-ence has been called by the solicitor of the department of agriculture, Thomas G. Caffey, who with his as-sistant, R. W. Williams, Jr., will ar-rive in Ogden from Washington, D. C. Sunday and go to Salt Lake Mon-day morning with Mr. Peagans.

Reports from the assistants of of-fice work, recommendations of chan-ges in regulation of national forests and special problems of administra-tion in the national forest service will be gone over. The assistants who will attend are Mr. Caffey, Mr. Will-iams, Mr. Peagans of Ogden, H. P. De-chant of San Francisco, Cal.; W. F. Staley of Portland, Ore.; W. C. Hen-derson of Missoula, Mont.; D. F. Mc-Gowan of Albuquerque, N. M., and George E. Trowbridge of Denver.

Miss Blanche Blackburne of the Manti headquarters, has been assign-ed to the local office for one month de-tail work.

Youthful, Beautiful Skin Easy to Have

(From The Clubwoman.)

You may be as healthy as a bird in the air and still have a poor complexion. Changing seasons and tempera-tures, winds, dust and dirt are apt to injure any skin, even though the general health be good. When these external influences spoil the complexion, the natural thing is to remove the spoil by external means. Ordinary mercurized wax will do this. It will actually absorb the weather-beaten film-skin, a little each day. In a week or two you'll have a brand new complexion, a new skin. The exquisitely beautiful and youthful complexion thus acquired comes so easily, without harm or discomfort, there's no reason why any woman should not adopt this simple treatment. Get an ounce of mercurized wax at any drug store, apply nightly like cold cream, wash-ing it off mornings. This will not fail in any case.

To quickly remove wrinkles, signs of care and age, bathe the face occa-sionally in a solution of powdered saxolite, 1 oz., dissolved in 1/2 pt. witch hazel. The results will surprise you.

OAKLAND POLICEMAN MINNESOTA FUGITIVE

Oakland, Cal., Nov. 6.—Peter Er-ickson told a policeman here today that he was tired of being a fugitive and so homewick for Minnesota that he would rather be in jail there than at liberty anywhere else. After his arrest he explained that he was par-doned from St. Cloud penitentiary 8 months ago and robbed a St. Paul home a short time later. He said the police knew of his crime and since then he has been a fugitive.

VETERAN TRAINER DIES IN PARIS

New York, Nov. 6.—The death of Richard Carter, Jr., who was widely known as one of the best trainers of thoroughbred horses in this coun-try, is announced in special cable advices from Paris. The death oc-curred at Chantilly on Tuesday night, a few hours after Carter had submit-

YOUNG WOMAN IS AFRAID OF RANCHER

Seattle, Nov. 6.—John Bays, a ranch-man of Rapid City, S. D., was arrest-ed by the police tonight on complaint of Miss Jessie Graham, 22 years old, who said Bays was trying to prevent her appearing as a witness in a white slave case in the federal court at Kansas City.

Miss Graham said that so far Bays had only attempted to persuade her to leave the country, but she was afraid he would use force to get her to go to Canada. She said that in Tacoma recently Bays took her trunk from her when she was preparing to leave.

Harry Kemp, the American poet, is to be deported from England to the United States on the completion of his three weeks' sentence.

HEAR THE EDISON NEW DISC

Come in and hear Mr. Ed-ison's great new machine. The new Edison reproduces the song as perfect as if the singer was right in the room with you. It has a diamond reproducer (no needles to bother with). Records are indestructible. Call at once and make arrangements for a week's trial in your home. This machine is in a new class; we guarantee to please you.
